1. Purpose of your presentation/speech

The purpose of this presentation is to teach people how to play chess

2. The reaction, or action, you want to take place with the audience

I want my audience to be able to appreciate chess and want to play it right after learning it.

3. Three goals you have set for yourself in this presentation

- Inform students about the benefits of chess
- Speak accurately and demystify the stigmas around chess
- Try to get my point across very clearly

4. A fact that you are aware of concerning this audience, topic, or situation that might impact how you make your presentation

I know not everyone in here plays chess or sees its benefits. I also know there are a lot of women that are not interested in playing chess.

5. Information, organization, ideas, or delivery strategies you will feel will really make an impact on the audience

I will demonstrate how each piece moves in class. I will have an online chess board as visual aid.
